Revised itinerary . . . if you want to send to Kate . . . so far we have 30 people registered for Dillingham and only 7 registered for Newhalen. I expect more to register and more from the community to show up. The Newhalen Tribal Council is calling the surrounding Lake Iliamna villages to try and get other community representatives to come to the meetings. The travel is expensive. People have been asking about funds to attend, I let them know that EPA does not have funding for that, however if they have this sort of training in their workplan they might talk to their Project Officer, Westley Foster, to see about using GAP \$. (for the Mining training)

Newhalen Mining Session registrants include tribal representatives from Pedro Bay, Igiugig, and hopefully others.

Dillingham Mining Session registrants include: Tribal Representation from: Portage Creek, Aleknagik, Twin Hills, Stuyahok, Ekwok, Manokotak, Curyung, Bristol Bay Native Association, Bristol Bay Area Health Corporation, and other individuals.

Registrations are still coming in.

TTAU is also supporting the air & water programs with their Arctic Permitting work.

For RA:

- OITA is interested in hearing how each Region and AA-ship is planning to address the Consultation Policy requirement to submit semi-annual projections of upcoming consultation work. This issue will come up at the next IPPC meeting. R10 expects to funnel the information from each regional program (likely with the support of the Tribal Specialist Team) through our Consultation Specialist. While HQ wants to ensure a bi-annual planning process, I anticipate that we will be providing input into the database throughout the year, as consultation issues arise.

For Kate:

- Draft R10 consultation procedures

Sally will be in on Tuesday, then traveling with Tami to Iliamna and Dillingham Wednesday through Friday. Diana Boquist is acting.
